

NextGen Strap Trailer CX-09HCS

Cottrell's CX-09HCS embodies a distinctive look and advanced design accomplished by innumerable hours of collaboration between Cottrell and our customers. This 9-car soft tie down unit is one of the most maintenance friendly models on the market today. The addition of adjustable decks with no flippers has established this unit as the most sought out design in its class. There are several options that can add value to this unit so call EastCoast for more information.
