

NextGen Strap Trailer CX-09LS

The CX-09LS is an efficient, effective quickloader-style unit. Simplicity and durability are cornerstone descriptions of this stylish, proven model. The CX-09LS is perfect for operations that have short hauls and multiple daily loads. This trailer can be combined with our 3-Car CS or 4-Car CS headramps making it a powerhouse within the marketplace. This model can also be equipped with a special truck package for hauling full size pick ups.
