

NextGen Strap Trailer CX-11HCS

The CX-1HCS soft tie down unit contains the cutting edge innovations that truly demonstrates Cottrell's years of experience engineering and manufacturing auto transport equipment. The CX-11HCS comes from the long line of existing products that have made Cottrell the leader of the industry. With 3 Independent, sliding top decks and several built in wheel pockets, this model will out load and out maneuver all other products within the NextGen series. This care trailer can be combined with our 3-Car CS or 4-Car Cs headramps truly making it a sought after product by all carriers.
